

TECHNICAL EXHIBIT 3-001 GOVERNMENT-FURNISHED EQUIPMENT

The following tables provide current listings of Government-Furnished Equipment (GFE) for each Files Activity location. Not all site listings are complete. Items which will generally be furnished at each site but that are not included on the GFE lists for all sites include: telephones, clocks, calculators, and bulletin boards, and a mouse, keyboard, and monitor for each desktop computer.

Each site participating in the Correspondence Imaging System (CIS) (see Paragraph 5.7.1 or Technical Exhibit 5-001) will also have a Kodak 3520 Scanner upon implementation of the program.

In addition, some sites also possess United Parcel Service (UPS) or Federal Express (FedEx) equipment which is not Government-owned. This equipment will also be made available to the Service Provider.

Note that a standard shelving unit provides 21 cubic feet of usable storage.
